

Aurelia Executive Future Night 2026

Configure the public Registration Page, form, pricing and Guest List workflow.

Registration settings

Control availability, capacity, transfer workflow, billing and informational pricing.

Registration information title

Registration for Aurelia Executive Future Night 2026

Registration information

Join us for an exclusive evening focused on innovation, AI-powered business and the future of digital customer experience.

Registration is subject to organizer approval. Once your registration has been accepted, you will receive your personal QRGATE invitation and digital QR ticket by email.

Registration opens

2026. 09. 08. 10:03

Registration closes

2026. 11. 02. 10:03

Maximum attendees

400

Leave empty for no configured capacity limit. Capacity is counted by attendee records, not Registration groups.

Show capacity on the public page

Example: 120 / 300 registered - 180 places available.

Guest List transfer

Manual approval and transfer

Manual is the default. Automatic mode approves eligible attendees and adds them to the Guest List after the Registration Contact or attendee has been verified. Invitations are still sent separately.

Allow one contact to register multiple attendees

A verified Registration Contact can add additional people. Each person remains a separate attendee record and later a separate Guest.

Require the Registration Contact to confirm they are authorized to register other attendees

Request billing information

Privacy policy URL

Require privacy consent

Informational pricing

QRGATE calculates and stores prices for information only. It does not collect or settle payments.

Enable informational pricing

Base price per attendee

100,00

Currency

EUR

Text after the price

+ VAT

Show calculated price on the public Registration Page

Examples: + VAT, + ÁFA, gross, includes dinner.

Existing submitted Registration prices are stored as snapshots. Later price changes affect new submissions and later editable submissions only.

Save Registration settings

Registration Form Builder

Configure standard attendee fields and add Event-specific questions. Question answers are included in the Registration XLSX export.
